Autophagy-adaptors regulate cellular metabolism through multiple transcription-factor pathways

报告人：Dr. Masaki Komatsu

报告时间：2016年4月23日 10：30-11：30

报告地点：生物物理研究所 9501会议室

主持人：张宏研究员

报告人简介

Dr. Masaki Komatsu is a professor of Niigata University . The metabolic changes associated with deficiencies in autophagy are largely unknown. Dr. Masaki Komatsu 's work shows that deficiencies in autophagy are associated with rearrangement of glucose and lipid metabolism via multiple transcriptional regulatory mechanisms.
